

SPEAKE-MARIN

Shenandoah Blue Stars

2017 – Speake-Marin presents a new model in the Shenandoah Collection : The Blue Stars.

Two years ago, Speake-Marin launched their first ladies collection: the Shenandoah. This year, the Swiss brand reveals the last born of this collection: The Blue Star.

To create this watch, Speake-Marin was inspired by its name. Indeed, Shenandoah is the name of a river in Virginia, United States, and it means in Amerindian “the beautiful girl of the stars”.

For this beautiful girl of the stars, Speake-Marin created an azurite dial to reproduce the frame of a starry sky with a diamond-set shooting star

Entirely designed and developed by Speake-Marin's team of in-house designers, the Blue Stars has been created and produced with a well-defined character in order to stand out from other models, but keeping certain strong design codes from that Speake-Marin DAN such as the hands. Feminine down to the smallest detail, it lends a touch of softness to Speake-Marin masculine world.
